

Avocado Cucumber Salad

Printed from Cucumber Recipes at <http://www.cucumberrecipes.co.uk/>

You could use this avocado and cucumber salad as a salad, or you could use it as a relish in enchiladas or tacos. It would also be tasty served with tortilla chips as a simple green salsa.

Ingredients:

2 cucumbers
2 avocados
Small handful freshly chopped coriander
1 garlic clove
2 spring onions
Salt and pepper
Juice of one lime
Juice of half a lemon

Directions:

1. Cube the cucumbers. Chop the avocados in half around the stone, then twist to separate. Remove the stone, then scoop out the flesh using a spoon.
2. Finely chop the spring onions and mince the garlic clove.
3. Stir the cucumbers, avocados, coriander, garlic and spring onions together, then dress with the lemon and lime juice. Season well with salt and pepper.
